DIGIFYME www.digify-me.com

For Digifyme, Developing the learning management system as a platform for teachers, students, and other users. I have managed and implemented the project as a team leads for the entire project. Digifyme website is developed by two senior full-stack developers. One is responsible for developing the learning platform and the admin panel, forum, and the rest items are developed by me. For the Admin panel, filament admin is utilized and AWS services are used for the hosting part.

KEYPERSONS [key-persons.jp](#)

Keyperson is the project for business representatives' communication. We have developed a program of event creation for business representatives and also built the functions for checking the event as a user. The Keyperson project is part of the aidma holding's project.

MINTASIA www.mintasia.co

Mint website is the static portfolio website for digital agency. For mint website, we have developed it as clean as possible as per brand guidelines. Within a very short period, our team managed to develop the efficient website.

MSME www.msmemm.org

Msme website is the project of Myanmar SME's Development Centre. The founder of our agency made me lead this project, developed with Laravel as I am very passionate with it. Authentication and Online forum parts are the main parts that I've developed and the whole project's architecture was set up.

DENKO MYANMAR www.denkomyanmar.com

Denko Myanmar is one of the leading companies in Myanmar. This project is to develop a static portfolio website. Upgrading the outdated versions and maintaining the website, resolving errors are the main tasks of me.

PRONITI TRAVEL www.pronititravel.com

Proniti Travel is one of the well-known travel agencies in Myanmar. The project is to develop a portfolio website with full information. I was responsible for maintaining the website. Upgrading the versions of PHP and WordPress is the main task for me while resolving the errors and bugs which lead me to gain a lot of experience to be a good developer

PSMC www.psmc.org.au

PSMC (Panditarama Sydney Meditation Centre) is the website of meditation Centre at Sydney. The objective for this project is to build the informative website. It was developed for PSMC as CSR project by Digital Dots.

ACAE www.acaemyanmar.com

Australian International Preschool & Primary School in Yangon for Myanmar Students. This project is to create the clean and informative website.

It is the very first project when I started working in tech industry. I had to start with this project as a coding test by the founder. I was working on all pages of the website as per the design provided by UI Designers.
